First Announcement

Peoples' Friendship University of Russia, with the cooperation of the Steklov Mathematical Institute of the Russian Academy of Sciences and the Lomonosov Moscow State University, is organizing the Fifth International Conference on Differential and Functional Differential Equations, August 17–24, 2008. The scientific program will consist of invited 45-minute lectures, 30-minute lectures, and 20-minute communications.

The conference will be devoted to classical topics of the theory of differential equations and different kinds of nonlocal interactions:

- bifurcations,
- ordinary differential equations,
- analytic aspects of dynamical systems,
- spectral theory,
- partial differential equations in functional spaces,
- linear and nonlinear problems of mathematical physics,
- semigroups of operators,
- asymptotic methods,
- attractors of evolution equations,
- boundary-value problems and nonlocal problems,
- functional differential equations,
- applications.
